asia's demand for second generation financial institutions and markets needs to be met in order for the region's further development to be sustained this book provides a compelling fact based assessment of current practices and regulations in asia's financial institutions and markets and carefully documents the exciting opportunities and challenges that lie ahead in the region's financial systems this book differs in design from typical treatments of financial institutions and markets because its focus is on asia rather than using the us model in terms of market configurations or products as a benchmark and it takes a contemporary and forward looking view of financial markets examples of practice from asia are used to illustrate major accepted themes in finance and financial regulation to the extent that asia's main economies share characteristics that are distinct for example in the relationship between government and the banking sector or in aspects of corporate governance the book will discuss the consequences for market operation and intermediation the book's carefully structured facts and rigorously argued analysis carry important implications both for students in business and law and for professionals new to financial markets in asia it will change the way that asian financial markets and institutions is taught in universities as well as provide a valuable resource for professionals working in finance in asia

in what ways is climate change political this book addresses this key but oddly neglected question it argues that in order to answer it we need to understand politics in a three fold way as a site of authoritative public decision making as a question of power and as a conflictual phenomenon recurring themes center on de and re politicization and a tension between attempts to simplify climate change to a single problem and its intrinsic complexity these dynamics are driven by processes of capital accumulation and their associated subjectivities the book explores these arguments through an analysis of a specific city ottawa which acts as a microcosm of these broader processes it provides detailed analyses of conflicts over urban planning transport and attempts by city government and other institutions to address climate change the book will be valuable for students and researches looking at the politics of

climate change
